

NUR DIANA BINTI MOHD JOELAIRA

Bachelor of Computer Science (Software Development) With Honours

Address: Sungai Buloh, Selangor, Malaysia

Phone: +6014-621 0454

Email: dianajoelaira@gmail.com

SUMMARY

Detail-oriented Computer Science student with strong hands-on experience in UI/UX design, frontend web development, and system analysis. Skilled in PHP, CodeIgniter 4, Laravel, and MySQL. Seeking a 6-month internship placement (20 Sept 2026 – 19 March 2027) to contribute to practical web application development.

EDUCATION

Universiti Sultan Zainal Abidin (UniSZA) — Bachelor of Computer Science (Software Development) With Honours Oct 2023 – Current

CGPA: 3.68 | Expected Graduation: March 2027

Politeknik Besut Terengganu — Diploma in Information Technology (Digital Technology) Jun 2020 – Jul 2023

CGPA: 3.87

WORK EXPERIENCE

Frontend / Web Developer Intern — Setiausaha Kerajaan Negeri Kelantan (SUK) Jan 2023 – Jun 2023

- Developed and enhanced web interfaces using HTML, CSS, PHP, Laravel, and Bootstrap, utilizing Laragon and phpMyAdmin for local development, database management, and system testing.
- Digitized employee records into the database to replace manual paper filing, cross-referencing entries against Excel logs to verify and maintain historical data accuracy.

PROJECTS

AR-Based Customized Shoe Recommendation System

- Final Year Degree Project at University Sultan Zainal Abidin (Unisza)
- Built a rule-based recommendation engine that suggests suitable footwear based on the user's specific foot condition (e.g. flat feet, plantar fasciitis, bunions, etc), with a calculated match score for each recommendation.
- Integrated an AR viewing feature using the phone camera to display a 3D shoe model on a real-world surface, such as a floor or table, for product visualization before purchase.
- Enabled customization of shoe colour and size in 3D, with material recommendations tailored to the identified foot condition.

Smart Medicine Reminder Box (IoT)

- Developed an IoT-based medicine reminder that alerts patients at scheduled dosage times and automatically unlocks the medicine compartment.
- Implemented sensor-based detection to identify when medicine was removed, automatically stopping the alarm and re-locking the compartment.

Beauty Touch Spa Booking System

- Final Year Project at Politeknik Besut Terengganu
- Developed an online appointment booking system allowing customers to browse and book available spa treatments.
- Digitized the manual logbook system into a centralized web-based portal to streamline appointment scheduling, customer records, and booking management.

ACHIEVEMENTS

- Awarded Ketua Jabatan Award for achieving Dean's List in all 6 semesters during Diploma studies.
- Achieved Dean's List for 4 semesters in Bachelor of Computer Science (Software Development).
- Awarded 3rd Place in the Diploma Final Year Project presentation.
- Earned Google Prompting Essentials Certificate (Grow with Google), mastering generative AI prompting techniques and workflow integration.

TECHNICAL SKILLS

Programming & Development: PHP, Java, JavaScript, HTML, CSS, SQL, CodeIgniter 4, Laravel, Flutter, Bootstrap

Database & Tools: MySQL, phpMyAdmin, VS Code, Android Studio, XAMPP, Laragon, KNIME, Tableau

Other Skills: Three.js, Blender, Responsive Web Design, UI/UX Design, Frontend & Backend Development

PROFESSIONAL SKILLS

- Project Management, Problem solving, Analytical Thinking, Team Collaboration, Communication Skills, Software Documentation, Requirements Analysis, Time Management, Adaptability.

LANGUAGES

- Malay (Native)
- English (Intermediate)
